25X				
		Between 9:45 and 11:06 o.m. on 8 April 1952, there was flyi	mar of the	
		Finsterwalde airfield by three jet bombers	ng ao sne	25X1
		Eight take-offs and landings were observed.	•	
25X1	2.			
	3.	At 4 pome on 18 April, there was flying by jet bombers at t	he installation.	
		Formation flying was practiced also at a high altitude. The of jet bombers involved in these activities was 12. Twin-en	maximum number	
		were also seen at the field. **	fine aliverate	25X1
25X1	I	0 .	·	
	h .	On 23 April, 12 take-offs and landings by jet bombers were	reportional of	
	->0	the field. The twin-engine planes previously seen at the in	stallation were	
25X1	, ,	no longer seen. *** A radio installation was in operation w	est of the runway.	25X1

	<u> </u>		t bombers and	-
		B-25s at the installation.		25X1
25×1	*	Comment. There is a possibility that the two bomber	regiments at	
		the field which are being trained with jet bombers are rece 27 or 30 planes by rail. New aircraft were sent by air to t	iving new type-	
		northern bomber division in the spring of 1951. The shipmen

		stage of training with the jet bombers available to the two in Finsterwalde.	bomber regiments	
25X1	**	* Comment. It has not been observed that the Pe-2s pre		
		to the bomber regiments at the field were transferred. It is believed that these planes were parked in the numerous hang	s therefore ars of the	
		installation during the time of observation.
